

7th Grade (Please note that all 7th graders will be required to have an iPad or Kindle Fire)

Explorations in Literature - BJU - (E-text) - *Explorations in Literature* offers a diverse compilation of stories, poems, and essays from a variety of authors and genres grouped by theme to develop critical thinking skills. Thinking Zone pages throughout the book ask questions to encourage the student to think about literature on at least four levels: comprehension, interpretation, analysis, and appreciation.

Writing & Grammar 7 - BJU- *Writing & Grammar 7* presents clear instruction in writing and grammar, including an overview of the Writing Process and many focused writing activities. The seventh-grade English educational materials covers all eight parts of speech, the five basic sentence patterns, usage concepts such as agreement, and mechanics. Adjective clauses and complex sentences are also introduced. Writing projects include a biographical sketch, an in-class essay, a letter to the editor, and a book report.

World Studies - BJU - (E-text) - *World Studies* is rewritten and updated to provide a fresh look at the civilizations of the world through the lens of a Christian worldview. This edition begins with a brief review of history from Creation to the coming of Christ and progresses in a chronological journey around the world studying the ebb and flow of empires, cultures, Christianity, and world religions, concluding with an examination of the trends of the emerging 21st century.

Math 7 - Purposeful Design- Intermediate Course A is designed to prepare your middle-school students for mathematics at the high school level. Algebra and geometry strands are developed in a sequential, thorough manner that builds on the concepts and skills presented in the Purposeful Design Mathematics series for elementary school.

Life Science - BJU - (E-text) - Students will learn the science of life in this colorful textbook that displays an engaging design sure to grab their attention from the very first day. Students will study cell biology, genetics, the history of life, microbiology, botany, zoology, ecology, and human anatomy and physiology, all within a biblical framework.

Life Science Lab - BJU - Labs are often the most exciting part of a life science class. These labs will make the subject come alive for your student! This updated *Life Science Lab Manual* includes worksheets, activities, and labs. Class Investigation activities are true laboratory experiments. Each one provides clear instructions for the student and asks probing questions, requiring students to think through what they are observing and studying.

Behold- Your God - Positive Action - This study has one purpose - to encourage your students to know their God. By presenting the Bible as God's self-revelation, *Behold Your God* magnifies the character and work of the Father, Son, and Holy Spirit.

Spanish 1 - BJU - (E-text) - *Spanish 1* introduces students to beginning Spanish. Students will learn how to ask and answer questions in Spanish, give and follow directions, purchase items, make small talk, and present the gospel. The textbook is rich with activities to help students gain confidence with the Spanish language.
